

TO THE PUBLIC

The Exchange Insurance Company has authorized the publication of an official organ which will appear the first of May. It will be known as "The Exchange Herald," published at 101 1/2 N. Greenwood St. by J. R. Garrett and M. D. Russell, Editors.

KENTUCKY 'JIM CROW'

LAW IS HELD VALID

(Star News Service.)
WASHINGTON, D. C., Apr. 23.—The supreme court today upheld the Kentucky separate coach act requiring the separation of white and Negro passengers and holding that it applies to the South Carolina and Cincinnati street railway and the Cincinnati, Cincinnati and Erlanger railway company while operating between points in Kentucky. Justices Van Devanter, Pitney and Day dissented in part.

Used Gasoline For Coal Oil--Good Night

6-Year-Old Dead From Explosion
Fire and Sister Badly Burned

(Star News Service.)
SAPULPA, Okla., Apr. 23.—Baxter Carter, 6-year-old girl of this city, was burned to death and Callie Carter, an 18-year-old sister, received burns which may prove fatal when a can of gasoline exploded in their home here shortly after noon today. A fire which followed the explosion was checked by neighbors without the aid of the local fire department.

The older girl said that she was starting a fire and had mistaken the gasoline for kerosene and poured a quantity of the liquid into a small blaze in a cook stove. The body of the small sister was taken to Mitchell-Flannery Undertaking parlor.

DISCHARGES PRISONER

Court Holds Testimony Against Man Not Sufficient to Warrant Jury Consideration of Case.

Sustaining a demurrer by counsel for H. P. Coker, to the testimony offered by the state against the defendant, charged with the larceny of two automobile tire casings on September 6, 1919. Coker was discharged at the conclusion of his trial yesterday in district court by Judge Redmond S. Cole.

Coker maintained he was the driver of an automobile in which Leon Collins rode on the night of the theft and that although Collins obtained two tires from an alley on West Third street, this defendant stated through his counsel, that he did not know the tires to have been stolen property.

Collins entered a plea of guilty several weeks ago to the charge of theft of the tires valued at \$76.50, from the Steiner Tire company on East Second street, and was sentenced to one year in the penitentiary. Coker, claiming he was hired by Collins to drive to a point

on East Third street, says he did not know the intentions of his passenger.

MEXICAN REVOLT STILL SPREADING

Forces of Carranza in Chihuahua Desert. Reports Say

SONORA ARMY GAINS

Continue March Toward Mazatlan. Important Port on West Coast of Mexico.

ANIMA PHOENIX, Sonora, Apr. 20.—The revolutionary movement of Sonora against President Carranza is gaining ground rapidly. Military headquarters here report. Gen. J. M. Pina, commander of the Sonora troops in this district announced Gen. Francisco Urbaleja, with his Carranza force at Santa Rosalia, Chihuahua, had revolted and would take the field for the Sonora movement. Urbaleja's force reported to have 400 Yaqui Indians under his command. Other unofficial reports of other Carranza troops in Chihuahua resulting also were received. It was said.

Santa Rosalia is on the Mexican Central railroad which runs south from Juarez, Chihuahua. It is in a district that Francisco Villa widely used for his operations. With Urbaleja operating in that country it was said, great damage could be done to Carranza's line of communications between the south and troops in northern Chihuahua.

Military headquarters at Hermosillo also sent out a report today that the troops of Gen. Angel Flores were continuing their march toward Mazatlan, an important west coast port of Mexico.

From Nogales, Sonora, came the report the independent state government of Sonora, through its secretary of state, Saberoquez, had issued a statement guaranteeing protection to all commercial interests in Sonora.

Great Demand For Trained Teachers

WASHINGTON, D. C., Apr. 21.—The School of Education of Howard University has not been able the past year to supply more than one-fourth of the requests made upon it for teachers for secondary schools and colleges. This means an average of four positions for every graduate which we turned out during the past year. Graduates of this school are scattered numerously throughout the country as deans of colleges, principals and teachers in high and normal schools, elementary schools and kindergartens.

Another Church Goes Up.

(A. N. P. Service.)
CRESTLINE, Ohio, Apr. 23.—Crestline Colored people have purchased a large brick store building on East Buryas street, owned by Marshall Wm. Simms and will remodel it into a church.

J. T. Presley, proprietor of the Red Wing Hotel and Cafe, spent Friday and Saturday in Kansas City, and while there invested heavily in Kansas City property. He returned home Sunday morning.

EMPLOYERS TO HEAR ALLEN

Kansas Governor Will Attend Annual Gathering at Oklahoma City.

OKLAHOMA CITY, Okla., Apr. 20.—Governor Henry J. Allen of Kansas, Miss Mabel Adams, secretary of the Kansas Engineers' association, and Harry F. Atwood of Chicago, a speaker on Americanism, will be speakers at the annual session of the Oklahoma Engineers' association which convenes here May 19, if not postponed today.

Wood's Full of Candidates.

(A. N. P. Service.)
FORT SMITH, Va., Apr. 23.—The Rev. Edward H. Hunter, D. D., pastor of the Emmanuel A. M. E. Church of this city, will be presented by Virginia for the bishopric in the African Methodist Episcopal Church at the general convention which will be held in St. Louis during May.

Tribulations of Pale Faced Folks.

It does not matter how white a Negro person may be in any community, if he is known to be of the Negro race, he is limited in the exercise of all his rights and privileges of citizenship, in politics in public affairs, as a wage-earner, as a churchman, in social affairs. It is not possible for such a person to be satisfied with his life or the result of his labors as a citizen.—The Washington, D. C. Eagle.

The Un-American American Press.

The press creates public sentiment. Patriotism and national self-preservation demand that sentiment should be such as to bind all Americans, no matter what their ancestry, more closely, together and not estrange them. The press of America is doing this latter by its indefensible and senseless treatment of Colored Americans.—The Omaha, Neb., Monitor.

EDITORIAL SQUIBS

(A. N. P. Service.)
Look out, we are about to lose Frederick Douglass! Arthur Brisbane declares the great Frederick was too white to have his name added to the Hall of Fame list as a Negro.

When is a wise man not a fool?

Well done is not half done. The effort is the same but the result is different.

Women are not much unlike men. When they love, they love; when they hate, they hate. Men do no more than this.

There is one good thing Prohibition has given us. It has made men more kissable.

Self conceit is a chicken that never laid a good egg. Now be wiser.

What's the use of leaders anyway? They only want political jobs.

ANTONIO MORENO

Inspired by the advice of an American actress, Antonio Moreno joined a stock company at Northampton, Mass., after completing his course at Wilkesboro Seminary. Soon he was engaged by Leslie Carter and later appeared with Constance Collier in "Thais." Then he went into silent drama and played with Edith Storey, Irene Castle and Pearl White. Then Albert E. Smith, president of Vitaphone, placed him under a long-term contract and introduced him to the screen. His fiery black eyes, black hair, complexion of "golden panner" and a talent for expression make him the ideal type for the screen.

Tuberculosis Work Among Us.

The Piedmont Sanatorium, the State sanatorium for the treatment of incipient and moderately advanced cases of tuberculosis among the Colored residents of the State of Virginia, opened April 22, 1918. At present it consists of an eight-bed sanatorium with a medical superintendent and examiner, a resident physician, a head nurse, and a dietitian, all specially trained in tuberculosis. A training school is being conducted for the training of Colored nurses specializing in tuberculosis, who are on the same footing as those trained at the white sanatorium at Catowba, and to whom the certificate is given by the State Board of Health. The capacity of this school is ten. With all beds full and a long waiting list the future of Piedmont is now assured.

The effort to get more beds for the treatment of tuberculosis in the Negro race must be made in the South, and it behooves citizens of all races and creeds to join in the effort. Publicity of facts will reveal to the lawmakers and other leading citizens some startling evidences of the interdependence of the two chief races of the South. When this fact is as fully realized by the general public as it is now by those vitally interested in tuberculosis no difficulty will be experienced in obtaining adequate treatment for all affected.—Southern Workman.

SENEGAL WARRIORS AMUSED CROWN PRINCE

Foreign News Letter Tells How German Crown Prince Mal-treated African Heroes.

(Star News Service.)
NEW YORK, N. Y., Apr. 23.—Letters sent to the American press by foreign news correspondents are telling the inner secrets of the life of Prince Wilhelm, the German Crown Prince, commander of German armies, while he was in camp at headquarters, Charleville, during the late war. A number of Senegalese and Algerian soldiers, who had been taken prisoners, were turned over to his care, and the following paragraph tells how they were treated:

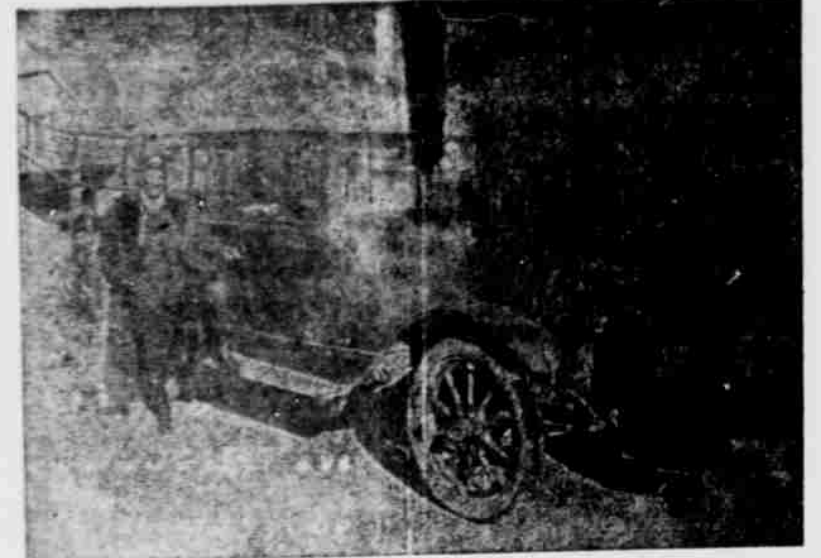

Negro prisoners furnished another form of amusement for the Imperial German Crown Prince. Thirty-seven Senegaleses and Algerian riflemen, captured during the Aisne offensive of 1917, had been placed at his disposal.

From the first, these unhappy prisoners of war served him for amusement. He had them dressed in ridiculous costumes capped with shiny silk hats and ordered them to follow him everywhere he went. Some of them even rode in his automobile with him.

His greatest pleasure was to make them clean the streets attired in their weirdly elegant costumes. He had himself photographed with them in all sorts of attire, and these documents which he carefully preserved, form not the glorious mementoes of his military career.

These unfortunate ones were maltreated by their guards who even deprived them of nourishment. The civilians of Charleville, full of pity for these brave soldiers, taken in defending La Parrie wanted to give them little tid-bits and tobacco. Woe to those who obeyed the promptings of their heart. They were struck with the butt ends of muskets and later haled to court and fined.

Lawyer Chappelle of Sapulpa was a visitor in the city Saturday.

ARE YOU SICK!

Your Resolution Should Be:
"I will Get Well the Mechano-Therapy Way"

Mechano-Therapy is a scientific method of finding the cause of disease in the spinal column (back bone), and correcting that cause by adjusting the vertebrae (segments) of the spine to eliminate any pressure on the nerves that pass out from the spinal cord to supply all parts of the body with nerve force (life). When this is done nature will make you well. Mechano-Therapy adjustments open the channels for nature to do her work.

Let us explain how Mechano-Therapy will make you well. No charge for consultation.

So-called headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, very neck, facial paralysis, locomotor ataxia and other inco-ordinations are caused by pressure on nerves at this point.

Pressure on nerves in this part of the spine is the cause of so-called throat trouble, neuralgia, pain in arms, goitre, nervous prostration, la grippe, diarrhoea, bleeding from nose, disorder of gums, catarrh and other so-called "diseases."

Pressure on nerves here will cause so-called bronchitis, felons, pain between the shoulder blades, hay fever, writers' cramp, and other troubles.

Pressure at this point causes so-called nervousness, heart disease, neuritis, pneumonia, tuberculosis, difficult breathing and other lung troubles.

So-called stomach and liver troubles, enlargement of the spleen, pleurisy and a score of other troubles are caused by pressure on nerves in this part of the spine.

At this point we find the cause of so-called gall stones, dyspepsia of upper bowels, fevers, shingles, hiccough, worms, and many other inco-ordinations.

Pressure on nerves at this point will cause so-called Bright's disease, diabetes, floating kidney, skin diseases, boils, eruptions and rheumatism.

Such troubles as so-called appendicitis, peritonitis, lumbago, etc., yield to Mechano-Therapy adjustments in this part of the spine.

Why have so-called constipation, rectal troubles, sciatica, etc., when adjustments at this part of the spine will eliminate the cause?

A slight displacement of one or both hip bones will produce so-called sciatica, together with many "diseases" of pelvis and lower extremities.
